

## ACCOUNT 'ability' rules our mind

Bengaluru is home to some of the best minds in the world. WIPRO, BIOCON, INFOSYS, WOCKHARDT HOSPITALS, ISRO... The list just gets better and better. But, what's getting worse and worst is road safety and the never ending traffic jams. However, we can make a difference by pledging to drive safely and using the roads responsibly. Let the ability to do something with accountability arise from our mind, soul and hearts.
